

II WORKSHOP ON ELECTROCHEMICAL DEVICES II WORKSHOP ELECTROBIONET

University of Oviedo, November 9-10, 2017

INVITATION

Oviedo, September 26th , 2017

Dear Colleagues,

This is the second circular for the second workshop on Electrochemical devices and the second workshop ElectroBionet, that will take place at the University of Oviedo in November 9-10, 2017, in the frame of the Network of excellence "Electrochemical sensors and biosensors (ElectroBionet)", and as a continuation of the same Workshop started in 2016 in Porto.

The Workshop is organized by «NanoBioAnalysis» (NBA) and «Electroanalysis Group University of Oviedo» (GEUO). Contributions will take the form of oral communications (supposedly 15 min + 5 min discussion) to present the latest scientific results in the context of electrochemical sensors and biosensors. The workshop will offer the possibility to discuss and develop further own concepts with all the partners. Master and PhD students will have the opportunity to participate in hands-on practical sessions.

Participants are invited to submit the title and abstract for their presentations (see attached template). The abstracts should be sent by e-mail (oviedo.electrobionet2017@gmail.com), by **October 15th, 2017**.

In order to book the accommodation for the participants, we advise that each group leader provide us, as soon as possible, the names of the participants of their group, as well as their travel plans.

We are looking forward to welcoming you all in November in Asturias!

Yours sincerely,

Agustín Costa García
María Jesús Lobo Castañón
